

## Lumistar Luminaire ESL25LED-Ex

**II 2G Ex db IIC T6 Gb**  
**II 2D Ex tb IIIC T80°C Db**

- **For mounting on sight glass fittings**  
Designed for universal applications, this Ex-type sight glass luminaire has been developed for use in potentially explosive environments. It is ideal for combined sight glass and light assemblies, either as a single-flange version or with two separate flanged ports.
- **Compact yet powerful:**  
Dazzle-free illumination, for use with circular sight glass fittings to DIN 28120/DIN 28121 or similar, with screwed sight glass units in compliance with DIN 11851, and in visual flow indicators.
- **Large light aperture thanks to optimised screw-in lens design**
- **Application:** For illuminating visual flow indicators, pipelines, laboratory mixers, bioreactors as well as the interior of pressure vessels, tanks, agitators and other – normally closed – processing vessels in potentially explosive environments.  
Gas: Zones 1 and 2; Dust: Zones 21 and 22.
- **Especially suitable for use in sterile and food areas**
- **Protection class:** IP 65 and IP 67 according to DIN EN 60529
- **Operating conditions:** Independent of the internal pressure/vacuum in vessel. Under no circumstances should a sight glass luminaire be used to replace the mating flange or the sight glass/luminaire assembly or on its own to close a vessel port.
- **Attention:** Do not look into light – danger of impaired eyesight!
- **Lumistar luminaires of this type are approved for use in ambient temperatures up to 50°C.**
- **Technical data Ex protection:**  
This luminaire meets the essential safety and health requirements by complying with the regulations for
  - a) **Gas**
