

Sight Flow Indicator Type S With Spinner/Paddle Wheel

VP5.01

- High Visibility Spinner
- Threaded or flanged connections
- Pressures up to 60 Bar
- Temperatures up to 250°C
- CE Marked where required and fully compliant with the Pressure Equipment Directive

Applications:

The style S sight flow indicator is used to check the flow of a liquid in a pipeline. It can be used in vertical or horizontal lines and is ideal for flow monitoring in full pipes.

Advantages

- Fully PED Compliant
- Ease of Maintenance: Glasses can be individually removed & replaced
- Durable construction
- METAGLAS[®] Safety sightglass option

Construction:

- · Screwed connections to NPT, BSP parallel or taper
- Socket weld also available
- Standard Flanges include ANSI 150, ANSI 300 and PN16 Special flanges available
- Body cast in 316 stainless steel or carbon steel
- · Stainless steel covers and screws
- PTFE gaskets
- Sodalime glass to BS3463 for rated to 16 Bar
- Borosilicate glass recommended for steam & condensate

Options:

- **METAGLAS**[®] Safety Sightglass Windows For ultimate safety & long life
- **Special Materials**: Including Super Duplex or Low Carbon Steels.
- NACE MR0175: Sightglasses can be produced to conform with NACE MR0175
- Lining: Body can be lined with HALAR, ECTFE or PFA for particularly corrosive applications
- **High pressure** soda lime glass to BS3463 rated to 60 bar
- **High pressure** range uses powder coated mild steel covers as standard, stainless steel covers available as an option
- **Toughened Borosilicate** to BS3463 or DIN7080 rated to 16 Bar
- **Mica discs** can be used to protect glass from alkaline liquids or steam

Quality:

- Manufactured to the highest standard
- Quality system is independently certified to ISO9001
- Indicators are fully PED compliant & CE
 marked where required
- Full material traceability is maintained, material Test certificates & pressure test certificates supplied on request
