

Type sheet Pressure relief valve KITO® EV/o-...

Application

As emergency venting device for installation on storage tanks with a VRV to protect against hazardous excess pressure but minimize the loss of gas/vapours. Also suitable as replacement of a manhole. This device does not protect against the hazard of explosion or stabilized burning.

Dimensions (mm)

Indicated weights are understood without weight load and refer to the standard design

Example for order

KITO® EV/o-20" ASME
(design with flange connection 20" ASME B 16.5 Class 150)

Without EC certificate and CE-marking

Type sheet Pressure relief valve KITO® EV/o-...

Design

	variant I	variant II
housing / valve seat edge	steel, stainless steel mat. no.1.4301	stainless steel mat. no.1.4301
valve pallet	steel	stainless steel mat. no.1.4301
lever	steel	stainless steel mat. no.1.4301
load weight	steel	stainless steel mat. no.1.4301
valve sealing	NBR, PTFE, EPDM (optionally)	
setting	5-100 mbar	
bolt	stainless steel	
protective hood (option)	galvanized steel	
flange connection	EN 1092-1 Typ type B1, ASME B16.5 Class 150 RF, API standard 650 (optionally)	

Performance curves

The flow capacity V [Nm³/min] refers to a density of air with $\rho = 1.29 \text{ kg/m}^3$. When the set pressure is reached, the valve starts to open and reaches full lift within 20% overpressure. If the allowable overpressure is less 20%, please consult der factory for the corrected volume flow.
